/THE HISTORY/

La Storia di PALEO, che da oltre 30 anni si occupa della progettazione e produzione di box doccia, è ricca di cambiamenti. Il tutto nasce nel 1959 a Lumezzane, in un popoloso e industriale paese in provincia di Brescia, quando dall'intuizione di Emilio Ghidini nasce la GEL. L'attività principale era quella di lucidatura di posate, ma ben presto le esigenze del mercato, l'elasticità dell'azienda e la capacità del suo fondatore di lavorare con i metalli, tramutano la GEL in fonderia: siamo nel 1960. Dopo 15 anni di attività nel campo della fusione e produzione di accessori da bagno, la GEL sente la necessità di affrontare una nuova sfida: la società si trasferisce a Bovezzo, si specializza nella produzione di box doccia e prende il nome di PALEO. È il 1975. Nonostante le trasformazioni PALEO, arrivata ormai alla terza generazione, è sempre riuscita a mantenere la caratteristica di azienda familiare che le ha permesso, unita alla passione e alla dedizione dei suoi lavoratori, di tramandarsi nel corso degli anni le caratteristiche basilari per ottenere un prodotto di qualità. Ampliata nel 1989, l'azienda si sviluppa tra magazzino dei profili, macchinari per il taglio e foratura, impianto di verniciatura, montaggio, siliconatura, imballaggio e magazzino finale. Grande spazio è lasciato ai test e alle certificazioni mentre la produzione, che avviene utilizzando solo prodotti europei certificati per garantire ai consumatori una funzionalità nel tempo senza compromessi, è seguita in ogni sua fase da personale esperto e qualificato.

The history of PALEO, which has been designing and manufacturing shower enclosures for over 30 years, is full of changes. It all began in 1959 in Lumezzane, in a populous and industrial town in the province of Brescia, when GEL was founded. The firm's main business activity was the polishing of cutlery, but soon market demands, the elasticity of the company and the ability of its founder to work with metals, transformed GEL into a foundry: the year was 1960.

After 15 years of activity in the field of casting and production of bathroom accessories, GEL felt the need to take up a new challenge: the company moved to Bovezzo, began specializing in the production of shower enclosures and changed its name to PALEO: the year was 1975.

Despite these changes, PALEO has always managed to remain a family business and, thanks also to the passion and dedication of its workers, this has enabled it to pass down over the years the basics for obtaining a top-quality product.

Expanded in 1989, the company features a profile warehouse, cutting and drilling machinery, paint, assembly and siliconizing shop, packaging and final storage warehouse.

A large part of the premises is dedicated to tests and certifications while all production stages, which make use of only European products certified to ensure long-term no-compromise functionality, are carefully looked after by experienced and qualified personnel.

/THE VISION/

... racchiudiAMO tutti i colori dell'acqua ...

Paleo è un'azienda caratterizzata da una forte identità e da uno stile innovativo e sofisticato. È un'azienda che parla un linguaggio universale, il suo spirito unisce da sempre alla sottile poesia della forma la massima funzionalità e praticità d'uso plasmando i migliori materiali attraverso lavorazioni d'avanguardia. Ogni prodotto Paleo nasce da un'idea forte e racconta uno specifico percorso creativo e tecnologico. Tutti sono coerenti con la filosofia aziendale che unisce da sempre la ricerca di nuove estetiche con una profonda conoscenza dei materiali e delle tecnologie. I box doccia Paleo sono caratterizzate da un senso della geometria sempre inedito e ad alto tasso creativo e traggono ispirazione di volta in volta da mondi diversi. La natura, gli scenari industriali, le arti visive sono solo alcuni dei contesti osservati e reinterpretati per dar vita ad ambienti bagno in cui forma e funzione si intrecciano e si completano, una sintesi sempre perfettamente calibrata tra funzione ed emozione.

... we lovely enclose all the colours of water ...

Paleo is a company characterized by a strong identity and an innovative and sophisticated style. It is a company that speaks a universal language. Its spirit has always combined the subtle poetry of form with maximum functionality and practicality of use, shaping the best materials using cutting-edge processes. Each Paleo product is the upshot of a great idea and recounts a specific creative and technological path. All this is consistent with a company philosophy that has always combined the search for new aesthetics with a deep knowledge of materials and technologies. Paleo shower enclosures are characterized by a sense of geometry which is always new and highly creative, and are inspired from time to time by different worlds. Nature, industrial scenarios, visual arts are just some of the contexts observed and reinterpreted to give life to bathroom environments in which form and function intertwine and come together in an always perfectly-calibrated synthesis of function and emotion.
